

(For Immediate Release)

Kingdee International Cooperates with Foshan Hospital of TCM Launching China's First Mobile TCM Hospital

(8 July 2014, Hong Kong) Kingdee International Software Group Company Limited (“Kingdee International” or the “Group”; Stock Code: 00268.HK), a leading Cloud Management services provider in Asia Pacific region, is pleased to announce that Kingdee Medical Software Technology Co., Ltd. (“Kingdee Medical”), a subsidiary of Kingdee International, launched China’s first mobile TCM hospital jointly with Foshan Hospital of TCM (Traditional Chinese Medicine). The mobile services and payment system to patient had been launched on 1st July 2014 at Foshan TCM Hospital, and the system will be connected to a Wechat service platform. This is a milestone that traditional Chinese medicine has entered into mobile Internet era by adopting modern information technology.

Mr. Xu Dongtao, Deputy Secretary of Foshan Municipal Government, Mr. Lian Lingdong, Deputy Director of Health and Family Planning Bureau of Foshan City, Dr. Liu Xiaofang, Director of Foshan Hospital of TCM, Mr. Chen Dengkun, General Manager of Kingdee Medical and other leaders attended the press conference. Meanwhile, nearly a hundred reporters from renowned media in China attended the press conference, experiencing the system while reporting.

Simply by following the Wechat service platform of “Foshan Hospital of TCM”, patients can access to the functions of Kingdee Medical’s mobile services including registration, payment, health reports and fee breakdown reports as well as service satisfaction survey. Patients can conveniently get medical services and make payments through this easy access, and no longer need to spend much time in queuing up.

In addition to the conventional functions, the project also has 5 highlighted points as follows:

1. Entire mobile paperless process: the entire procedures of registration, payment, inspection, consultation, prescription are connected to mobile paperless, rapidly identification by electronic authentication code without queuing number and receipt, as well as to cease annoyance in carrying many receipts and patient cards;
2. Considerable intelligent guidelines: intelligent guide to each sectors in the hospital and details, which provides patients “Know what to do” and reduce queuing flow, as to increase efficiency of diagnosis;
3. Discount for differentiation registration fee: for more than 10 patient types in the hospital can enjoy the concession for the differentiate registration fee, encouraging mobile registration;
4. Mode of multiple users log-in and payment: support multiple log-in platforms and payment tools such as Wechat. Moreover, information of registration and consultation could be synchronized to the common platform of regional health information, so that

patients can access to medical service within the region;

5. Independent security arrangements: the mobile service system for patients is based on independent intellectual property rights agent middleware. Private cloud platform of the hospital can be deployed independently, and security can be self-controlled.

The launch of Patient Mobile Servicing System by Foshan Hospital of TCM has pioneered the application and use of mobile Internet in the hospitals of TCM in China, which enables Foshan Hospital of TCM to be the first mobile internet hospital of TCM as well as the first thoroughly paperless outpatient service hospital. Also, it can solve the problem of "three long and one short" and fundamentally improve patients' medical experience.

"We changed from passive adaptation to active innovation" said Dr. Liu Xiaofang, principle of Foshan Hospital of TCM. Dr. Liu added: "We insist treatment technology excellence, so as to provide a better service to our patient as we aim at becoming one of the leaders in the field of TCM in China. The launch of Patient Mobile Servicing System is our first creative exploration and use in the field of mobile internet, which means we are continuously improving our services and convenience to our patient."

Mr. Chen Dengkun, General Manager of Kingdee Medical said: " This is the first launch of Kingdee Medical's complete automatically hospital solution, we became the leader of Chinese hospital mobile internet payment transformation, because we innovated patient mobile service and pay system and successfully launched at Guangzhou Women and Children's Medical Center and Foshan Hospital of TCM. With Kingdee Group's corporate mobile internet experiences, we believe it will further consolidate our strengthen in the industry, so as to build a China's fastest mobile work platform and service to more hospital adopting mobile internet service to improve high quality services."

Kingdee Medical launched China's first mobile TCM hospital jointly with Foshan Hospital of TCM.
