

Press Release

(For Immediate Release)

Kingdee and Aisino Establish Strategic Partnership

(May 9, 2016, Shenzhen · China) Kingdee International Software Group Company Limited (“Kingdee” or “Group”, Stock Code: 00268.HK) is pleased to announce that Kingdee and Aisino Corporation (“Aisino”, Stock Code: 600271.SH) jointly held a press conference and signed a strategic cooperation agreement. The two companies will leverage their advantages in technology and resources and actively explore multi-channel innovative value-added services in the informatization of enterprise taxation management, big data application in taxation, mobile office, shared finance management services, and internet finance.

According to the agreement, the partnership will take advantage of the comprehensive business solutions of invoice management and e-invoicing technology from Aisino, as well as the extensive experience of Kingdee in financial cloud services and big data. The two companies will integrate both ERP and tax management products, providing integrated taxation, finance, risk management and other value-added services to enterprise and business users. Recently, the companies have been focusing on making breakthroughs in tax management and electronic invoicing for the hospitality and real estate leasing sectors, helping users to achieve safe, convenient and efficient taxation information management.

Yu Liang, General Manager of Aisino said, “Kingdee is a leading corporate Internet services provider. Our strong partnership with Kingdee is an innovative action plan to implement the national ‘Internet+’ strategy. This will enhance the integrated service capability for more

than 10 million Small and Medium Enterprises (SMEs), providing one-stop financial and taxation management services as well as comprehensive tailor-made solutions and helping them to solve problems effectively and enhance their efficiency.”

Robert Xu, Founder and CEO of Kingdee said, “Aisino is one of the most influential listed companies in the IT industry in China. They form the main driving force in national large-scale information technology projects and e-government development. In December 2015, Kingdee has cooperated with JD.com and Aisino to achieve the first electronic invoice recordkeeping system in China. This time, the strategic partnership with Aisino will integrate various ERP products, mobile Internet products, financial shared products and provide enterprise and business users with low-cost, high-efficiency integrated tax management services to create a ‘more open-minded, more diverse, more efficient, more intelligent’ ecosystem of finance and taxation.”
