## **Kingdee Deepened Cooperation with Huawei and Jointly Launched the Kingdee Cloud Cosmic+GaussDB Solution**

(10 September 2019, Hong Kong) **Kingdee International Software Group Company Limited** (“Kingdee” or the “Company”; stock code: 00268.HK), a leading enterprise Cloud service provider, is pleased to announce that Kingdee and Huawei Technologies Co., Ltd. (“Huawei”) have jointly launched the Kingdee Cloud Cosmic+GaussDB solution at Kingdee Cloud Cosmic Summit Forum.

Kingdee Cloud Cosmic and Huawei are highly complementary to each other in enterprise services. They can implement in-depth cooperation in terms of technologies, products and services to provide clients with high quality products and services. While Kingdee has extensive experiences in enterprise Cloud service market, GaussDB OLTP is highly compatible with most commonly used databases together with powerful enterprise database capabilities and Huawei’s successful data migration practices. Both sides will collaborate on the adaptation of Kingdee Cloud Cosmic to GaussDB, thereby jointly launching the competitive solution which combines the respective strengths of Kingdee Cloud Cosmic and GaussDB.

As the new generation of digital enterprise symbiosis platform based on

Cloud-native architecture, Kingdee Cloud Cosmic used distributed architecture to support Cloud-native technology represented by microservices, container services, DevOps, etc. With advantages in platform technologies, Kingdee Cloud Cosmic has made major breakthroughs in the Industrial Internet, enterprise middle-end platform architecture and smart finance services. Meanwhile, it has teamed up with many platform ecosystem partners and operated over 50 internal and external SaaS applications. Kingdee Cloud Cosmic will continue to attract more partners to build a stronger platform ecosystem. Up to now, it has signed contracts with 43 customers, including Fortune 500 companies such as Xiamen International Trade Group Corporation and HBIS.

Adopted Switch Turbo technology, Huawei's distributed OLTP database GaussDB enables failure recovery in seconds, and supports three deployment modes: single node, distributed deployment and active-standby modes to meet enterprises' demands for core applications. As an enterprise-grade database with high performance, GaussDB can effectively tackle with the data explosion brought about by 5G, IoT and mobile Internet. While the single node mode can handle 1.5 million tpmC, the distributed deployment mode can handle tens of millions of tpmC.

Kingdee will continue to cooperate with platform ecosystem partners to promote the development of Industrial Internet and help more enterprises to realize digital transformation through the adoption of Cloud services.

~ The End ~

### **About Kingdee**

Kingdee International Software Group Company Limited ("Kingdee International" or "Kingdee") was established in 1993. It is listed on the Main Board of the Hong Kong Stock Exchange (stock code: 0268.HK) and headquartered in Shenzhen, the PRC. Adhering to the core values of "Acting in all Conscience, with Integrity and Righteousness", the Company is committed to helping businesses achieve their growth targets and let the sun shine on every company through dedicated services. It strives to provide them with the most trusted enterprise service platform.

Through persistent efforts to explore China's Cloud enterprise service market,
