Kingdee International Software Group Company Limited

(Limited company incorporated in Cayman Islands)

(Stock code: 0268.HK)

Kingdee and Fenghua High-tech Jointly Start a New Journey to Digitalization

[December 31, 2021, Hong Kong] On December 24, the launching meeting for the ERP platform construction project of Guangdong Fenghua High-tech Co., Ltd. (hereinafter referred to as “Fenghua High-tech”) was held in Zhaoqing Fenghua Electronics Industrial Park. Yang Ming, Senior Vice President of Kingdee International Software Group Company Limited (“Kingdee International”, “Kingdee” or the “Company”, collectively called the “Group” along with its affiliated companies; stock code: 0268.HK) and General Manager of Kingdee Guangdong, Lin Mengjie, Deputy General Manager of Kingdee Guangdong, and relevant persons in charge of the project on both sides attended the meeting, jointly discussing the strategic plan and implementation plan for the digital transformation and intensive strategic operation of Fenghua High-tech. The meeting marks a new step forward on Fenghua High-tech’s journey to digitalization.

Yang Ming said Fenghua High-tech and Kingdee as leaders in respective fields have many similar genes, and hopes that empowered by cloud technologies, both sides can team up and contribute to the self-strengthening of the nation and industrial revitalization amid the huge wave of information technology application innovation and localization. As the next generation PaaS platform, Kingdee Cloud Cosmic can help enterprises, particularly large enterprises, build independent and controllable digital business capability assembly platforms with steady performance, strong resilience and fast response, and thus resembles the “arm shop” for enterprises to generate digital fighting capacity. The project gathers the best talents from both sides. During implementation, members of both sides are expected to uphold the same initial

aspiration and goal, and work to complete the construction of the digital platform.

The leader of the Kingdee and Fenghua High-tech project team gave a report on project launch, detailing the goal and scope of the project, division of labor among members, implementation strategy and plan, as well as management mechanism.

In the era of Industrial Internet, enterprises are undergoing drastic digital transformation and revolution in operation and management, products and services, and commercial modes. As a new choice for countless Top 500 enterprises, Kingdee will stay focused on the desire of enterprise operators for growth, provide steady, reliable, safe and trustworthy cloud services with sustained innovations for all industries, and empower more Chinese enterprises with cloud technologies.
